Dr. Pierce's Favorite Prescription,

Is not a secret or patent medicine, against which the most intelligent people are quite naturally averse because of the uncertainty as to their harmless character, but is a medicine OF KNOWN COMPOSITION, a full list of all its ingredients being printed, *in plain English*, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure glycerine taking the place of the commonly used alcohol, in its make-up. The "Favorite Prescription" of Dr. Pierce is in fact the only medicine put up for the cure of woman's peculiar weaknesses and ailments, sold through druggists, that does not contain alcohol *and that too in large quantities*. Furthermore, it is the only medicine for woman's special diseases, the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of some of these endorsements will be sent to any address, postpaid, and absolutely *free* if you request same by postal card or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Don't forget that Dr. Pierce's Favorite Prescription, for woman's weaknesses and delicate ailments, is not a patent or secret medicine, being the "Favorite Prescription" of a regularly educated and graduated physician, engaged in the practice of his chosen specialty—that of diseases of women—that its ingredients are printed *in plain English* on every bottle-wrapper; that it is the only medicine especially designed for the cure of woman's diseases that contains no alcohol, and the only one that has a professional endorsement worth more than all the so-called "testimonials" ever published for other medicines. Send for these endorsements as above. They are *free* for the asking.

If you suffer from periodical, headache, backache, dizziness, pain or dragging down sensation low down in the abdomen, weak back, have disagreeable and weakening, catarrhal, pelvic drain, or are in distress from being long on your feet, then you may be sure of benefit from taking Dr. Pierce's Favorite Prescription.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative: two or three a cathartic.

VIRGINIA STATE LIBRARY.

Under an act of the last assembly the efficiency of the Virginia State Library was largely increased. Provision was made at that time for the divisions of bibliography, traveling libraries, archives and history and the department of notes and queries. All of these sections are now in first class working order, and the library board is prepared to assist the public in any line of research undertaken for the advancement of education in this or other states.

Seventy-five traveling libraries are now located in various sections of the State, and in addition to this number, twenty-five will be added within six months. These libraries can be secured by any community making application in due form to the Virginia State Library, and as the railroads carry books free, no expense results to those having the project in hand. The libraries consist of fifty volumes of assorted literature, and are carefully selected in the interest of all readers.

The purpose of the department of archives and history is to collect, preserve and publish valuable manuscripts belonging to the State and its honored sons. The library board will be glad to hear from any one having knowledge of valuable private collections of manuscripts, and will assist in every way possible to collect and preserve such papers. The interest of the public generally is necessary, however, to perfect the plans of the State in this direction. Hundreds of valuable manuscripts have been purchased by agents who have been carrying on a large traffic in this material for many years. Papers sold to such collectors seldom find their way into public libraries, but are delivered to private parties, who will neither permit an examination to be made of them or dispose of their possessions. The Virginia State Library has instituted an energetic campaign to prevent this traffic which is rapidly depleting the historical sources of the State. The co-operation of any one in this work will be greatly appreciated.

Attention is likewise directed to the divisions of bibliography and notes and queries. The library is ready to assist any student to perfect his study along any line, and it is the privilege of every citizen of Virginia to use the various departments of this institution for that purpose. No charge whatever is made for information furnished, and correspondence on all educational subjects is earnestly solicited.

In addition to the traveling library system, of circulating books for the benefit of the public, the State also undertakes to assist all study clubs in research work. It is also the privilege of any person to borrow a book or books (fiction excepted) for the advancement of individual study.

In order that the citizens of Virginia may enjoy every privilege now possible to them, I am directed by the library board to say that the interest of each applicant will be most carefully considered, and, as far as possible, their demands granted.

JOHN P. KENNEDY,
State Librarian of Virginia.

Little Girl Accidently Killed.

Mary, the seven-years-old daughter of Sylvester Emerick, a Pennsylvania Railroad engineer, was accidentally shot and killed yesterday while playing at her home, at Elleralie, near the Pennsylvania state line in the vicinity of Cumberland, Md., She was playing in the yard with some children when Eugene Smith, aged about 20 years, son of Dr. J. Carl Smith, of Elleralie, went out to the stable to kill a rat, taking a 32-caliber rifle with him. The rat ran between two small buildings, and when Mr. Smith fired he killed the rat, but the ball passed through the rodent and struck the little child, who was on the other side of the fence, going through her heart and coming out on the right side below the armpit. Young Smith is almost prostrated with grief. A remarkable coincidence in connection with the sad affair was the fact that the child, with several companions, was playing "having funerals." They were burying their own little dollbabies after the fashion of children. The dead girl had just placed the last little handful of dirt on the grave of her "dead baby" when the crack of the rifle rang out, and her dead body lay almost across her dolly's mound.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, SEPT. 12, 1906.

WHEN THE present tariff act was under consideration in the House of Representatives in 1897, Mr. Dingley, who was the chairman of the ways and means committee, said the schedules were purposely placed too high, in order to leave a safe margin for reciprocity treaties that were intended to be made and for which the Dingley bill provided. But now comes Speaker Cannon and declares: "I have no hesitation in saying that the present revenue law known as the Dingley law, all things considered, is the most nearly perfect and just customs law ever enacted." Considering that the trusts and combines are protected by the 20 per cent. extra that Mr. Dingley admitted was "purposely placed too high" and that the republican leaders have refused to ratify the reciprocity treaties negotiated by President McKinley, it must be confessed that Mr. Cannon's statement is extraordinary. This is carrying the standpat position to the verge of defending the plundering of the people for the benefit of the trusts and combines and allows them in the future, as in the past, to extort such an unreasonable profit, that the cost of living has advanced 47 per cent. since the Dingley act became a law. And yet in spite of this Speaker Cannon and the other republican leaders have agreed that if they control the next Congress there shall be no tariff revision. Will the voters, when they elect congressman and and legislatures November 6 next, endorse the republican leaders in this attempt to continue trust protection and resulting high prices?

SENATOR RAYNER, a great admirer of William J. Bryan, predicts that he will give up the notion of government ownership of the railroads. He will hardly persist in such a policy when he sees that the democracy will never consent to the surrender of the principles of this government to embark upon the unknown sea of State socialism. As the Philadelphia Record says, Mr. Bryan has himself emphatically expressed his dread of socialism, and this sentiment should be sufficient to give him pause in contemplation of such a stride toward a gigantic social State as government absorption of all the railroads of the land. At any rate Senator Rayner is quite safe in his prediction that government ownership of the railroads will never be embodied in a national democratic platform.

WALTER A. EDWARDS, for forty-five years the in printing business and one of the founders of the old Norfolk Public Ledger, has retired from the newspaper business. Lucky man; many of his fraters will envy him. He will now devote all of his time to a police magistracy to which he has just been elected. He was once a member of the legislature and also grand keeper of records and seals of the Knights of Pythias of Virginia.

IT IS reported that the North German Lloyd Steamship Company will establish a direct line from Bremen to Charleston, S. C., with the object of aiding industrial immigration throughout the South. If immigrants of the proper class should come to the South and engage in tilling her lands this section of the country would soon blossom as the rose and its wealth would increase wonderfully.

SECRETARY SHAW is wrestling with the silver trust, which combine persists in raising the price of the product it controls, each month. Why should not such a typical American product as silver have a share of prosperity and why should Mr. Shaw "bear" the market for silver any more than the market for cotton or wheat?

IN REFERENCE to the recent assault cases near Luna Park, certain county officials appear to be talking too much to Washington newspapers of what they are going to do, but in the meantime are doing nothing. Men of action rarely take the public into their confidence.

THE Controller of the Currency reports that with the addition of thirty-three banking associations, chartered during August, the total number of banks is 6,162, and the aggregate capital rose to $838,804,775. The outstanding circulation is $569,852,303.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Sept. 12

The decision to send United States war ships to Cuban ports was not reached by the President until September 10, when the reports received from the island showed that the revolution was growing in strength and some protection was needed for American interests and citizens. The orders sending the Denver to Havana and the Marietta to Cienfuegos were issued by the Navy Department at the request of acting Secretary of State Robert Bacon, who received his instructions direct from Oyster Bay. The United States war ships sent to Cuban ports will not take any actual part in the hostilities in Cuba unless American lives are endangered or American property is seized or destroyed. The vessels are intended primarily for an asylum for citizens of the United States whose lives are in danger as a result of the revolution. In the opinion of many officers of the army and navy stationed in this city, the administration of President Palma, of Cuba, is doomed. Army officers who have lived in Cuba and are cognizant with the position there declare President Palma's small military force will be utterly incapable of dealing with the forces of the insurrection. While there is no present intention of intervention by the United States in the Cuban embroglio, the general staff of the army is already at work formulating plans for sending an army to the island to whip the turbulent people into a new state of law and order. The possibility that this country will finally again have to take charge of Cuban government is being seriously talked of in official circles, and the army in putting itself in preparation for such an emergency.

According to a report to the Department of Commerce and Labor, a steamship line will be opened up soon between Odessa, Russia, and New York. The first steamer will leave Odessa the last of this month, and will carry freight and emigrants.

After American manufacturers had turned down the proposition to join in a floating exposition, English manufacturers and exporters have adopted the idea. The mail steamer Cambroman has been chartered for this purpose and with British goods aboard will start in a month's time for a tour of the world. Forty ports will be visited, including the leading seaboard cities in the British Empire, China, Japan and South America. At each port the exhibition will be "opened" by a prominent official, and leading citizens will be invited to visit the steamer.

The Treasury Department today declined to make its weekly purchase of silver bullion, the lowest offer being 68 87 cents an ounce. This is two cents over the price obtained by the government a month ago when it began buying the metal.

Acting Secretary of State Bacon announced this morning that the United States cruiser Denver has been ordered to Havana, Cuba, and should arrive there tonight or tomorrow. The gunboat Marietta, which Mr. Bacon says is now at Monte Christi, Santo Domingo, has been ordered to Cienfuegos, Cuba. Those orders were issued by direction of President Roosevelt at Oyster Bay. The Des Moines will be held at Key West until further orders.

President Gompers, who returned from the Maine campaign this morning, speaking of the large reduction in the vote for Representative Littlefield, said: "Labor did it. The prohibition issue may have had some effect but labor was the chief factor. I am not disappointed or disheartened, for the elections throughout the State of Maine were bought. There was more money used in electing Mr. Littlefield, more Kentucky whisky was given away at Mr. Littlefield's headquarters than was ever before used in Maine politics, notwithstanding Mr. Littlefield was running on a prohibition ticket and avowedly out for clean politics."

Political.

The first two sessions of the New York Independence League, headed by William R. Hearst, were held in the city yesterday, the first being called to order in Carnegie Hall at 1 o'clock in the afternoon, and the second at 9 o'clock last night. Temporary and permanent organizations were perfected, and, amid much enthusiasm, last night a lengthy platform setting forth the principles of the league was adopted, the chief plank of which was municipal ownership. The convention declared positively last night in favor of the nomination of a full State ticket. The delegates took the bit in their teeth at the jump and ran away with the leaders, who desired merely the nomination of Mr. Hearst for governor and a chance to dicker for support with the democratic convention to be held at Buffalo on September 25.

The democrats of Delaware yesterday nominated their State ticket and David T. Marvel, of Wilmington, for Congress.

United States Senator Dick won the contest for chairmanship of the republican State executive committee in Ohio yesterday, carrying with it the State leadership.

The Cuban Situation.

President Roosevelt is determined to learn the exact condition of affairs on the island of Cuba.

Major E. F. Todd, of the Military Secretary's Department at Washington, has gone to Cuba to investigate.

The United States army and navy are prepared, and should the troubles assume very dangerous proportions this government will act.

It is officially stated that there is no intention to show any partiality to either side in the Cuban conflict.

Washington officials state that American interests in Cuba have not as yet asked for intervention.

Under Palma's decree suspending constitutional guarantees in Havana, Santa Clara and Pinar del Rio provinces numerous arrests of prominent liberals have been made.

Will Introduce Mr. Bryan.

Governor Swanson has set aside a number of important engagements to greet William Jennings Bryan at Radford, Va., and to introduce him when he speaks there. He will leave for Radford on Friday, and return to Richmond on Sunday. Tuesday he will meet Governor Warfield in Norfolk, and attend the laying of the cornerstone of the Maryland building at Jamestown. He will spend two days there in conference with the Virginia commissioners. September 26 he goes to address a Confederate reunion at Montross, Westmoreland county. The Governor is taking a very active interest in the Virginia exhibit at Jamestown. He has engagements for the entire month of October, and, with his office work, is anything but a figurehead. He has a large personal correspondence, and often works at home until midnight.

Rockefeller Pleads Not Guilty.

Findlay, O., Sept. 12.—John D. Rockefeller has pleaded "not guilty" to charges against the Standard Oil Company by Prosecutor David in the local courts. The defendants in the various cases against the pipe lines all appeared late yesterday and entered their pleas. Each demanded a separate trial by jury. In order to make this possible Judge Banker adjourned the session of the court to the first Monday in October. It has not been definitely settled whether the trials will begin that day, although it is stated that this will be the case.

The charge of forgery upon which she was taken into custody in the Mrs. Perry case was not pressed, but she was held on charges of forgery in two cases which developed after her arrest. Today's Telegraphic News

Stensland Sails for New York.

Tangier, Morocco, Sept. 12.—Paul O. Stensland, defaulting president of the Milwaukee Avenue State Bank, of Chicago, sailed for New York today on the Hamburg American liner Prinz Adelbert, in custody of Attorney Olsen, by whom he was arrested here and Detective Keeley.

The Prinz Adelbert went out of her course to call at Tangier, as Mr. Olsen was afraid to take his prisoner to any European port, fearing Stensland might attempt to take advantage of some legality of extradition treaties to escape being taken back to the United States.

Stensland was taken to the pier under military guard. He appeared pale and haggard. He is a nervous wreck, and is in bad physical condition. At times he is extremely despondent and sinks into fits of weeping, followed by loud protestations of his innocence. He asks continually "What do the people of America think of me?"

It is believed by many persons who have seen the absconder that his mind is unbalanced, and that he will probably offer a plea of insanity as his defense.

The authorities in charge of Stensland are extremely reticent in regard to his attempt at suicide. No details of his effort against his life are given, but the statement is vouched for on the highest authority. It is known, too, that since making the attempt Stensland has been deprived of a knife at meal times, and that his cravat was also taken away from him

The Hearst Ticket.

New York, Sept. 12.—William Randolph Hearst and a full ticket will be nominated tonight at the convention of the Independent League at Carnegie Hall. Independent in fact as well as in name, the delegates to the convention forced the Hearst leaders last night to bind themselves to a complete ticket. Fearing that there may yet be a deal with the democrats, many delegates were at the Gilsey House today demanding that candidates for places on the remainder of the ticket bind themselves not to withdraw. Fears were expressed that men might be named on the ticket who would withdraw if the democrats indorsed Mr. Hearst in order that democratic nominees could take their places. The ticket that will probably be nominated tonight is: Governor, Wm. Randolph Hearst; for Lieutenant Governor, Lewis Stuyvesant Chanler, of Duchess; for Secretary of State, Reuben R. Lye, of Steuben; for Attorney General, John Ford, of New York; for Controller, Isaac Rosenbloom, of Onondaga; for Treasurer, Dr. C. H. W. Auel, of Erie.

The committee on resolutions meets this afternoon to prepare its report on the Connors memorial. In view of the temper of the delegates for a straight ticket, the committee will probably refer the memorial to the convention without recommendation. After adopting the platform of the party last night, the convention adjourned until 8 o'clock tonight.

Race Riots.

New York, Sept. 12.—There were race riots on "San Juan Hill," on the west side of the city, today, and police reserves from every precinct were hurried into the district to quell the disorder. One man is dying and scores were injured in a riot of two thousand negroes early today in Sulzer's Harlem River Park. Trouble between the negroes started the rioting. A policeman tried to arrest two negroes for fighting. They set upon him and drove him from the place. Meanwhile two thousand negroes set upon the white employees of the park, and a free-for-all fight followed. The police reserves were called, and the rioters quelled for a time. Troubles broke out afresh later on "San Juan Hill," when a policeman shot a negro who attempted to escape arrest. Scores of negroes piled out of the tenements and attacked the police. The reserves were again called out and general fighting ensued. Negroes were felled by night sticks and after many minutes of fighting the police obtained control of the situation. San Juan Hill has for years been the hotbed of race riots.

Bank Reorganising.

Philadelphia Sept. 12.—Reorganization of the Real Estate Trust Company upon a plan which will be generally satisfactory was assured yesterday when the directors of the broken institution accepted the suggestions made by George H. Earle, jr., the receiver, in their entirety, and these suggestions were approved by counsel for the receivers and for the directors. The plan is being printed, and will be mailed tomorrow to the 6,000 depositors in the company. The crime of forgery was fastened upon Frank K. Hipple, the suicide president of the company, by the conclusion of the inquiry made into the Shwartz and Wabell notes for $198,000. The inquiry was made by District Attorney Bell and by his assistant, Joseph H. Taulane. Crooked financiering received a new twist when the District Attorney revealed the process by which Hipple boosted the bonds of the American-Swedish Crucible Steel Company from $500,000, the original issue, to $5,000,000

Resisting the Payment of Taxes.

St Petersburg, Sept. 12.—Armed resistance of taxes is being made by the residents of the district of Ural. Upon the advice of Chief of Voborg's manifesto issued by the members of the douma at the dissolution of parliament that the entire country should refuse to pay taxes, the peasants have organized to prevent the collectors from doing their work. In several villages where the police were called on to assist the collectors they were fired upon by peasants and a number killed. Troops are now being sent to the district to enforce tax collections. Notice has been given to the social democrat party that it will not be allowed to hold its congress, which has been called to meet soon.

Troutbeck Wins.

Doncaster, Eng., Sept. 12. — The famous St. Leger stakes for three-year-olds was won today by the Duke of Westminster's Troutbeck, with Prince William second and Beppo third. Lord Derby's entry, Keystone II, ridden by Maher, the American jockey, was a hot favorite for the race, but was unplaced.

New York Stock Market.

New York, Sept. 12.—The stock market opened with a majority of issues showing declines from yesterday's final figures. After the weak opening trade was slow and hesitating for some time, but later the tone became strong and at the end of the first hour many material gains were established in the leading issues. After this selling, was exhausted there was little supply in sight, while good buying was apparent all over the room.

May Eclipse Hartje Case.

Pittsburg, Sept. 11.—Squire A. W. McMillen, of Carnegie, who on last Sunday stabbed Legislator L. B. Cook almost to death, when he found him in company with his wife, is still in a cell at No. 4 police station, fuming and fretting like a caged tiger, while in the outside are several persons anxious and willing to put up the $5,000 bail which will be asked when it is decided to admit the politician to bail. The physicians in charge of Cook shake their heads, however, and refuse to allow McMillen to be admitted to bail. They say they cannot tell yet whether or not the former legislator will die.

McMillen has instructed his attorney that papers be drawn at once asking a divorce from his wife and naming L. B. Cook as co-respondent. It was rumored later that Mrs. McMillen had made a move to file papers for divorce to forestall her husband, and in which she promised to make things warm for him. Yesterday afternoon she had a long conference with Attorney Coll, law partner of L. B. Cook, who is lying stabbed at the Mercy Hospital. Should Mrs. McMillen succeed in filing her suit for divorce it is likely that some complications would arise which would make the Hartje case look tame.

Havana in an Uproar.

Havana, Sept. 12.—The city is in uproar. News that the United States government has dispatched three warships to Cuba has reached the people. It is rumored that more vessels are to be sent and that an American squadron will rendevouse off Havana harbor. Insurgents are boldly recruiting their forces within the city. Reports are constantly reaching here of insurgent successes. The Cuban government appears helpless. Many believe that President Palma is unable to cope with the situation. A crisis is expected within a few hours. Conditions in the city of Havana are today the most serious of any time since the outbreak of the present trouble, about three weeks ago.

Portsmouth, Va., Sept. 12.—Everything points to the departure from here of the United States protected cruiser Tacoma by tomorrow. The Cleveland is to follow. It is learned unofficially that these cruisers are to follow the Des Moines down the coast, but their destination is generally believed to be Cuba.

$15,000 For Woman's Love.

Lamar, Mo., Sept. 12.—A buggy ride and the love of a pretty woman have cost Bull M. Robinson $15,000 and caused a divorce suit. The money damages were awarded yesterday in Circuit Court, A. Roy Fuller securing that sum for the affections of his wife. The persons concerned are all prominent in society at Joplin, whence the suit was brought here. Robinson is a mine owner and Fuller is now a book-keeper. At one time he had been Robinson's private secretary. A warm friendship grew between the two men, and finally extended on Robinson's part as far as Mrs. Fuller, to whom he showed conspicuous attention. Finally came a buggy ride into the country on June 11, 1905, following which the Fuller's separated. Then followed the suit, which was decided in Fuller's favor.

The Disorders at Sidlce.

Warsaw, Poland, Sept. 12.—Another outrage by terrorists in Sidlce, today resulted in a further attack being made by soldiers upon a house in the Jewish quarter. It is feared this may lead to a renewal of the massacre. As a patrol of soldiers was passing a house terrorists fired upon the troopers. They replied with a volley and then entered the house, searching for the terrorists. All the latter escaped, however.

Conditions at Siedlce today are still chaotic. Efforts to restore order are being made, but traces of the horrors committed there still remain visible. The hunt for terrorists still goes on.

Jews have not got over their fright from the massacre and are keeping to their hiding places.

Flagpole Struck by Lightning.

New York, Sept 12. — Lightning striking the sixty-six foot flagpole on top of the sixteen story building at Spring and McDougal streets during a storm in this city today, caused a panic among the 2,700 employes of the Butterick Pattern Company, which occupies the entire building. A frantic rush was made for the exists, but officials in charge were able to calm the frightened employes before they were completely beyond control. Most of the employes are girls, and young women. Numbers were stunned by the force of the stroke, but no one was seriously hurt.

Head-on Collision.

Atlanta, Ga., Sept. 12.—Eight men were crushed to death and several others injured in a head-on collision between fast flying freight trains on the Western & Atlantic Railroad at Ringgold today. Traveling at high speed to make up time, the trains crashed into each other and both engines were demolished and part of the trains derailed. The dead and injured were pinioned in the wreckage. Conflicting orders to the crews of the trains is thought to be responsible for the wreck. A wrecking train is en route to the scene.

Four Prisoners Killed.

St. Petersburg, Sept. 12.—Four prisoners in the Mardin jail were killed and fourteen wounded by guards who fired on the prisoners during a general attempt to escape. The riots at the jail are described as serious.

City Council.

There was a brief meeting of the City Council last night. But three papers were presented, and they were soon disposed of. The new committees were announced by the presidents of the two boards. While new in name they are virtually the same as those of the last Council. No changes were made in those of the Board of Alderman and but few in the Common Council. These were necessary from the fact that some new members had been elected to the board.

BOARD OF ALDERMEN.

All the Aldermen were present, and after the minutes of the preceding meetings had been read no business having been presented, President Sweeney sent a notification to the Common Council that the Alderman were ready to adjourn. Subsequently three papers were sent in from the lower board. Two had been referred to committees and the third (providing for an adjournment until the second Tuesday in October) had been passed. The Aldermen concurred in the action of the Common Council on all the papers, although one—a petition from the Bryant Fertilizer Company—caused some discussion before there was a concurrence in the action of the lower board. The company recently erected a platform over the pavement on the east side of Union street, near Duke. The City Engineer a few days ago ordered the company to remove the same, and the latter sent a communication to Council last night praying that the matter be referred to committees in order that it can be thoroughly investigated, the platform in the meantime to be allowed to remain until the committees can report. The Common Council granted the request of the company.

When the communication was read in the Aldermen the disposition made of it by the lower board did not appeal to Mr. Simpson as being the proper procedure under the circumstances, as issue had been made with a city official who had acted according to the law governing such cases. Mr. Simpson did not like the manner in which the paper had been endorsed—"Granted and matter referred to the committees on streets and general laws." He was not opposed, however, to granting the request of the petition so far as referring it to proper committees was concerned and allowing the structure to remain until a report could be made, as that was practically a reference; but by the endorsement on the paper the city was not placed in a proper position. The petitioners had come into Council over the head of the City Engineer, and the speaker thought a simple reference was all that should have been placed on the paper. Technically Council was placing itself in the position of granting permission for the perpetuation of the obstruction, or of allowing the violation of a law until Council shall meet again.

Mr. Hill said from his understanding of the matter the Bryant Company merely desired that the platform be allowed to remain until the next meeting of Council when a compliance would be made with the report of the committee. The company did not want to be compelled to tear down the structure tomorrow. He thought the request should be granted and moved to concur in the action of the lower board.

Mr. Burke said the City Engineer would be satisfied if Council referred the matter and allowed the platform to remain until a report can be made.

Mr. Simpson repeated that he did not object to the structure remaining until a report can be made, but reiterated that he did object to the technical position in which the city was placed by the endorsement.

President Sweeney agreed with Mr. Simpson in regard to the matter.

Mr. Simpson finally said if the City Engineer would be satisfied with the action of the Common Council he would withdraw his objection. The action of the lower board was then concurred in.

COMMON COUNCIL.

The board was called to order by the President shortly after 8 o'clock. Almost as soon as the members took their seats,

Mr. Strauss hoped the session would be short, as it was very hot.

The Chair hoped so, too.

The Clerk, Mr. D. R. Stansbury, who was absent from the last meeting, then took the oath of office at the hands of the President.

The standing committees, as will be seen in the official proceedings, were announced.

A resolution appropriating $90 for a year's subscription for thirty copies of the Municipal Journal and Engineer, to be distributed each month among the members of council, was referred to the committee on finance. A similar proposition was defeated by the last council.

An order was passed authorizing a platform erected on Union street by the Bryant Fertilizer Company to remain until a report thereon is made by a committee was agreed to.

A joint resolution that when Council adjourned it should be to the second Tuesday in October was unanimously adopted.

No further business appearing and it being ascertained that the Aldermen were ready to adjourn the board adjourned till the second Tuesday in October.

Ohio Republicans.

Dalton, Ohio, Sept. 12.—The republican State convention met here today. Gov. Harris was elected permanent chairman.

Convention Hall, Dayton, O., Sept. 12. The platform to be reported by the committee on resolutions gives the most unqualified and cordial endorsement that language can convey to Senators Foraker and Dick. It specially endorses the railway rate regulation policy of Roosevelt. It declares for a general primary election law for all officers without limit, as to State, county, or municipality. Until such a law shall be enacted there is a declaration for the nomination of United States Senator by State convention. The tariff plank provides for a revision policy as outlined in the recent letter of President Roosevelt to Congressman Watson, of Indiana. There is a plank declaring for the local option principle in all temperance legislation. A larger navy is endorsed, as is also the merchant marine. It is advocated that a law be passed empowering the Governor to appoint a commission to draft a taxation constitutional amendment for submission to the legislature. The temperance measures of the legislature are endorsed. The platform adopted so far as the planks of vital importance are concerned was as prepared by Foraker and Dick.

Colored Soldiers Attacked by Pulajanes.

Manila, Sept. 12.—In revenge for punishment inflicted upon them by regular troops, for the killing of Lieutenant Treadwell, of the Philippine scouts, Pulajanes attacked a detachment of the Twenty-fourth Infantry, colored, and before they could be driven back killed two and wounded eight colored soldiers. The Pulajane band bolo'ed and rushed the camp. In the confusion of the darkness, the regulars were badly cut up before they realized that the Pulajanes were upon them. The colored troops were attacked in tents, the natives slashing the canvas with bolos and falling upon the sleeping soldiers. After a sharp fight the raiders were driven in route, many being killed and wounded.

Fatal Accident to an Engineer.

Mr. Hguh S. Murphy, an engineer on the Southern Railway, and a well-known and popular resident of this city, met a horrible death in Washington early last night, he having been mashed and scalded by the overturning of a locomotive near the corner of Sixth street and Maryland avenue. The circumstances in connection with the accident are sad, the unfortunate man having suffered excruciating agony while pinioned under his locomotive, which had overturned from some strange cause. With one leg terribly crushed and his body envel oped by escaping steam and with scalding water running over his body, he lay for an hour and five minutes before he was released. He was hurried to a hospital, but his death occurred about fifteen minutes after he had been placed upon an operating table.

Mr. Murphy was the engineer of passenger train No. 39, which is one of the fastest on the Southern Railway. It left Washington at 7:30 last night, with Mr. Murphy as the engineer and Joseph Reynolds, also of this city, as the fireman. As the train neared Sixth street and Maryland avenue, going at the rate of fifteen miles an hour, Engineer Murphy raised up in his seat and suddenly reversed the lever, at the same time calling to the fireman to jump.

While the engineer still had hold of the throttle, the engine suddenly toppled over on the right side. As the engine fell Mr. Murphy attempted to jump, but was too late, and his legs and right arm were pinioned underneath the cab. The rush of the escaping steam entirely enveloped the engineer, and it was not until about twenty minutes later that he was discovered by firemen who had hastened to the scene.

When discovered Mr. Murphy was lying face downward, crying for help. The cuticle had peeled from his face, and his clothes were smoking. He first called for a drink of water, and, after he had quenched his thirst with a stream from a hose which was handed to him by a fireman, he inquired if any of the passengers were injured. When informed to the contrary he directed that one of the men go to the roundhouse and get a jack and release him from his position. Despite the fact that he was almost blinded by the scalding steam and boiling hot water was pouring on him from head to foot the unfortunate engineer was collected, and gave instructions for his release.

About forty minutes after the accident had occurred a wrecking crew and train of the Pennsylvania Railroad arrived, and five minutes later Mr. Murphy was released and as soon as possible he was removed to the Emergency Hospital. By this time he was only partially conscious and died at 9 o'clock from shock, fifteen minutes after arriving at the hospital.

No reason can be assigned for the accident. Some suppose it was due to the spreading of the tracks.

The engine was thrown on the right side, the boiler being smashed in and the glass windows in the cab demolished. The baggage car, directly behind the engine, left the tracks, but remained on its wheels. The baggage master and his assistants escaped uninjured.

It was also said that the accident might have been caused from the drag of such a heavy train. Several similar accidents have occurred in almost the same spot within the past five years.

Mr. Murphy was one of the most popular engineers on the Southern road. He lived with his wife and four small children at 918 King street. Mrs. Murphy is a daughter of late Charles Cox and a sister of Messrs. Robt. H. and Wm. H. Cox.

Engineer Murphy's body was embalmed at the morgue in Washington last night. Corner Nevitt held an inquest this afternoon, and the body was later removed to the family residence in this city.

Mr. Murphy was a member of George Mason Council, Royal Arcanum, and of the Brotherhood of Locomotive Engineers, of this city, in which organizations he was very popular. Yesterday he was in the best of health and shortly before going to Washington in the evening to take out his train, called at the Armory Hall and secured permits for his children to attend the public schools. The deceased was a native of Fairfax county, having been born and reared near Springfield, a short distance from Alexandria.

Miss Grove Acquitted.

Luey Grove, the young woman who publicly horsewhipped Squire Henning at Vienna recently, was tried at Fairfax Court House yesterday and found not guilty by Justice of the Peace Phillips, upon the charge of committing perjury when she testified on August 18th that Eugene Hall had attempted to criminally assault her.

Miss Hall was represented by J. B. T. Thornton, prosecuting attorney of Prince William county, and Messrs. Thornton and Oliver, of Fairfax. Attorneys Mattingly, of Washington, and Keith, of Fairfax, appeared for Hall.

No witnesses were put on the stand for Miss Grove but herself, though there were eight witnesses on the other side. The speech of Mr. Thornton was generally commended.

The charge against Miss Grove grew out of information which she filed against Eugene Hall, charging him with having attempted to criminally assault her upon July 4th At the preliminary examination on August 18th, Hall was discharged by Squire Henning. In upholding his contention that Miss Grove committed perjury when she swore that he had attempted to assault her, Mr. Hall relied solely upon an alibi, in which he sought to account for his whereabouts during every minute of the Fourth.

Shriners' Day.

Preparations for Shriners' Day at Luna Park on Saturday, September 29, are being made, and the committee having the affair in charge are determined to leave nothing undone that can in any way add to the enjoyment of those who propose to patronize the excursion. An interesting feature of the day will be the solemization of a wedding at the park, and this number of the programme is now being arranged. The officials of the railway company have tendered the use of the palace car "Mount Vernon" in which the bride and groom will be transported to and from the park. The committee will not restrict this feature to one couple, but would prefer to have two or three wedding parties on the occasion. The "Mount Vernon" is to be bedecked with flowers by a Washington florist.

The R. P. Andrews Paper Company of Washington will give a free excursion to the park on next Friday. An interesting series of entertainments will be presented on this occasion.

The Hansborough Case.

Judge Nicol, in the Circuit Court, was engaged again today in a retrial of the case of Mary C. Hansborough, administratrix of the estate of her husband, George Hansborough vs. the Southern Railway Company, which is a suit for $10,000 for the death of Hansborough, who was struck and killed by one of the company's locomotives. At the first trial of the case in the Circuit Court, a jury awarded damages of $5,500, but, upon application by the railroad company, the Court of Appeals granted a writ of error and remanded the case back to the Circuit Court for trial. The plaintiff is represented by Attorneys J. K. M. Norton and Gardner L. Boothe, and the company by Attorneys C. C. Carlin and Henry O'Bannon Cooper. The case will not go to the jury before late this evening.

Killed by Lightning.

Walter Deeds, a young married man of the Friendly Gap neighborhood, 10 miles east of Harrisonburg, near the foot of the Massanutten Mountains, was struck by lightning late Monday afternoon during a heavy electrical storm. His body was not found until yesterday morning about eight o'clock. It was discovered in a hollow chestnut tree, in which the unfortunate young man had sought shelter from the heavy rain. A short time before the rain came up Deeds went into the fields to bring his horses to the stable. He had been absent only a short time when the storm broke. He crawled into the hollow trunk of the tree to seek shelter, when the lightning struck the tree in which he was concealed and another tree in the immediate vicinity. From all appearances death was instantaneous. The hair was singed from the back of the head and his clothing was burned and his arms and legs seared by the lightning When he did not return a search was instituted and kept up all night, without any trace of the missing man. His father, Cyrus Deeds, and the young man's wife found the body about 8 o'clock yesterday morning nearly doubled in the narrow space of the shelter. Deeds was about 30 years of age and leaves a widow and two children.

Released from Prison.

Paris, Sept. 12.—Frederick and Therese Humbert, perpetrators of the greatest swindle in the annals of France, have been ordered released from prison, to which they were sentenced for five years in August 1902. The counsel of the minister gave authority to Minister of the Interior Clemenceau yesterday to order their release under the conditional liberation law. The Humberts used as the basis for their swindle, the will of an imaginary American millionaire named Robert Henry Crawford, supposed to have left an estate of $20,000,000. Mrs. Humbert claimed to be heir to a vast sum under the will and secured large loans from bankers on the strength of her pretentions.

A generous supply of fatherly advice from Secretary of the Navy Bonaparte accompanied the diplomas handed to the eighty five cadets who were graduated from the Naval Academy at Annapolis today.

Minister Elopes.

The story of the elopement of a Pittsburg minister, who deserted his wife and five children to run away with a young church worker of that city, was made public yesterday by the police of Mount Vernon, N. Y. The eloping pair were Rev. C T Coombs, until recently pastor of the Lexington Avenue Episcopal Church, in Pittsburg, and Miss Lillian B Myckum, also of that city. Mr. Coombs, the police say, tendered his resignation as pastor three weeks ago, and immediately left, deserting his wife and children. Miss Myckum also departed soon afterward, saying that she was going to visit her parents in Everett, Pa. It was discovered later that the pair were staying at the St. Denis Hotel, in Manhattan, their whereabouts being learned from a girl friend in Pittsburg. The friend showed the letter to Miss Myckum's father, who communicated with Rev. E H Leisure and Rev. N. K. McKalip, of Pittsburg. Miss Myckum was persuaded to return home and left for Pittsburg with the ministers on Sunday afternoon and Coombs also quitted the city on the same day. He asserted that he was going to Washington, D C, and he is said to be now staying at the Raleigh Hotel in that city.

WEDNESDAY EVENING. SEPT. 12, 1906.

Slashing of Salads.

Too many people who are well bred in nearly every other respect are guilty of the solecism—to call it by the mildest name—of cutting up their salad on the plate. Of course salad has sometimes to be reduced to lower dimensions, so to speak, but it need not be done by the wholesale or quite in the businesslike fashion practiced by some. Grasping a knife in one hand and a fork in the other, they slash away at the inoffensive green stuff with a vigor and a noise of a miniature mowing machine until the bruised leaves are converted into shreds of their former selves. There is common sense in the convention that prohibits such a course. Nearly all green salads are broken into pieces of convenient size before sending to the table. Even when these are too large the leaf should be quietly divided with a fork.

Famous Boys.

A boy used to crush the flowers to get their color and painted the white side of his father's cottage in Tyrol with all sorts of pictures, which the mountaineer gazed at as wonderful. He was the great artist Titian.

An old painter watched a little fellow who amused himself making drawings of his pot and brushes, easel and stool, and said, "That boy will beat me some day." So he did, for he was Michael Angelo.

A German boy was reading a blood and thunder novel. Right in the midst of it he said to himself: "Now this will never do. I get too much excited over it. I can't study so well after it. So here goes!" And he flung the book out into the river. He was Fichte, the great German philosopher.

Monkeys Have No Fleas.

It is curious that monkeys should be thought to be infested with what naturalists call the Pulex irritans and what ordinary people know as the flea. As every zoologist is aware, monkeys have neither fleas nor any other parasite whatsoever, in which of course they differ vastly from man. As a matter of fact, when monkeys begin to pick each other about in the friendly way we have all observed they merely detach bits of hardened sebaceous matter which has been excreted by the glands, and the flea idea is entirely fabulous.

Her Sun Spots.

Sir Robert Ball on one occasion, after delivering a lecture on "Sun Spots and Solar Chemistry," met a young lady who expressed her regret that she had missed hearing him on the previous evening. "Well, you see," he said, "I don't know that it would have interested you particularly, as it was all about sun spots." "Why," she replied, "it would have interested me extremely, for I have been a martyr to freckles all my life."

Two Epitaphs.

An epitaph from a cemetery in Bridgton, Me.:

She was—words are too feeble to tell what.
Think what a wife should be;
She was all that.

This from Bar Harbor, Me.:

I reach my arms out fondly,
But they clasp the open air.
There is nothing of my darling
But the shoes he used to wear.

The Good and Beautiful.

To see the good and the beautiful and to have no strength to live it is only to be Moses on the mountain of Nebo, with the land at your feet and no power to enter. It would be better not to see it.—Olive Schreiner.

Cheerful.

Hook—Jones is the most melancholy fellow I know. Rook—I should think so, indeed. He proposed to a girl once by asking her how she would like to be his widow.

Order.

Order is the sanity of the mind, the health of the body, the peace of the city, the security of the state. As the beams to a house, as the bones to the microcosm of man, so is order to all things.

An Itching One.

Miss Country Maid—I understand that in some hotels one often sees palms about the dining rooms. What kind of palm is the most prominent? Mr. Dineout—The waiter's.

Society takes us away from ourselves.—De Lambert.

Bringing It Home.

Her Father—What are you and young Shortleigh going to live on in case you marry? His Daughter—Well, if you must know, papa, look in the mirror.

He censures God who quarrels with the imperfections of men.—Burke.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Lydia E. Pinkham, early in her career, gave exhausive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, scalding or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back, running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the female organs. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all the bad symptoms have disappeared.

I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it.

Mrs. J. W. Lang, of 636 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it; and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly.

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness, are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Lydia E. Pinkham's Vegetable Compound a Woman's Remedy for Woman's Ills.
